Hadith of the week

[Important] *The honour and respect of the words of Allah (SWT) and His Messenger (SAW) is obligatory on us. Due consideration needs to be given in the manner we dispose such material.*

It is reported on the authority of Ibn Abbas Radiyallahu anhu that the Messenger (Sallallahu alaihi wasallam) of Allah (swt) said: "Do not drink (water) in single breath like camel's drinking but drink it with two or three pauses.

Mention Allah's name, (Bismillah) when you drink and praise Him (Al-hamdulillah) when you finish"

[Tirmidhi]

Culinary Art Classes

The secondary school girls have been learning about the Art of cooking or in a more proper expression, Culinary Art, this term. Culinary Art is the art of preparing and cooking food. The word "culinary" is defined as something related to, or connected with, cooking. Progressively they are required to have knowledge of the science of food and an understanding of diet and nutritional facts, food safety and regulations as well as kitchen safety rules.

In the kitchen the girls worked in groups to prepare dishes of various themes from a variety of cultural backgrounds. They enjoyed working in the kitchen and learning the different skills and techniques in food preparation and serving. We have tackled one cooking theme per week in our cooking lessons. The girls of each year level have prepared a different recipe for the theme. It was amazing and pleasing to see girls from

Calendar of Upcoming Events

- ◆ 9th June:
VCE Subject Expo Session for Year 9 and 10 students
- ◆ 13th June:
Public Holiday
- ◆ 21st to 23th June:
Mid Year Exams
- ◆ 24th June:
Last Day of school for Term 2

Sunnah Corner

Etiquettes of Drinking Water

- One should hold the glass of water in the right hand while sitting down, say Bismillah and then drink gradually in three breathings (sips) saying Al-hamdulillah after each sip
- Drinking water while standing up or lying down is prohibited however one may drink Zam Zam water and leftover wudu water whilst standing up (Refer to Hadith related above)

Endangered Animals Incursion

On Tuesday, the 24th May 2011, grade 3 classes had an incursion on Endangered Animals, presented by WildAction. It was very engaging and informative and we received positive feedback from students. The following is a recount on the incursion written by one of our students:

Yesterday I went on an incursion. First, I touched all the animals. The two snakes' skins were smooth. The crocodile's skin was hard. The fruit bat was soft, just like the glider. My favorite part of touching animals was the bird. It was fun.

Next, the class talked about all of the animals. We talked about gliders, crocodiles, turtles, frogs, snakes, rainbow lorikeets and lizards. I liked talking about the turtles. It was fun talking about animals.

After that, we talked about how we can save animals from being extinct. I said, "We can save animals by putting fences, cameras and police around them." It was nice talking about how we can save animals.

Finally, we all went outside to play. I told my sister all about the incursion. She said, "I want to go to the incursion."

Prayer

By *Kalloom Khan - 9A*

It is the only and great religion that guides me to the straight path of Allah.

By doing your salaah

To earn yourself Jannah

As our Prophet (SAW) taught the Sahabah (RA)

As we know our respected parents Adam (A) and Hawah (A)

But don't forget the Sustainer, the Creator

And the Malik of both this world and the Akhirah

The Almighty Allah.

different grades sharing their recipes and techniques with one another. Our cooking themes for this term were multicultural recipes, vegetarian dishes, soups, side dishes, salads and desserts.

It was a great pleasure for us to see the girls actively

involved in the kitchen.

This active role in the kitchen not only has

helped them to develop skills and learn kitchen techniques, but has also improved their collaboration, intercommunication and teamwork skills. They have also developed some efficiency in their use of time, as having to prepare dishes in a short period of time as well as maintain an organised kitchen spot and ensure clean space after completion of the task was a bit of a challenge. In addition, I was pleased to see that allowing the girls to actively work in the kitchen and produce their own recipes has improved their self trust and self esteem which will help them in their future.

Well done secondary school girls.

Managing water One drop too many!

By *Mariam S, Faatima C, Zeynep K and Ruqayya Z - 9A*

Imagine opening your tap and nothing coming out

Imagine going a day without water

Imagine the feeling of a thirst not quenched

If the thought is so hard to bear, save it while you can because you

don't realise how much you need water until you've lost it. Water is a flowing jewel, what would you do if you lost it? You'll lose everything. Right?
